Descripción

Dr. Ismael, es la historia ficticia de un célebre físico y sus tres amigos cuyas destrezas los llevan a construir muchos androides con inteligencia artificial uniendo en ellos las cuatro leyes que rigen el universo los cuales cuidan las cuatro galaxias vecinas. Sus enormes avances en el campo científico les permite construir una máquina mutante la cual yace bajo tierra y el día menos esperado ella despertara creando una de las máquinas mutantes más perfectas del universo. La cual puede recrear el famoso big bang en cuestión de segundos. - César Niño. -
