### Descripción

Esta novela tiene mucho de ficción, pero también de realidad. La guerra que sostuvo Chile contra Perú y Bolivia, dejó en los países perdedores una herida que aún sangra. Como en todo conflicto, existen causas que lo originaron y decisiones que se tomaron con implicaciones que muchas veces no se puede prever y menos evitar y ese es el entorno en el que se desarrolla esta novela. Algunos personajes que se mueven entre bambalinas, con intereses egoístas que por regla general son económicos o de búsqueda de poder, son los actores que figuran en esta obra. Hombres que tienen la capacidad y el deseo de influir sobre otros, recurriendo al patriotismo que inflama a las multitudes para esconder sus verdaderas intenciones. Al escribir la historia de los pueblos, a veces se inculca el odio hacia los antiguos enemigos, lo que los distancia cada vez más y hace difícil un acercamiento que culmine en una existencia armónica y pacífica.
